

South Face Creative Builders

6/4/2011

Subject: Reference Letter

In May of 2010 we hired Alex Brogle of Southface Builders to complete our entire home remodel. We selected him after a rigorous search and a narrowed field of 4 builders. It has been 9 months since our project was completed and I would recommend Alex for any project being considered.

Alex was thoughtful in his approach to our project and considerate of our budget. We originally had plans drafted which was the basis of the original bid, but after additional discussion we would soon learn of Alex's knowledge of building design and flow. Alex came back to us with revised plans within our budget and the result was far superior, exceeding our expectations.

The project was slated for 4 months and Alex showed considerable patience and clearly runs a professional operation as we financed our project through an FHA 203(k) loan. When we broke ground in June, Alex immediately provided a detailed timeline outlining each phase of the project. Through our weekly "check points" with Alex we stayed fully engaged in the process. Those meetings were invaluable to the progression of our project and allowed us to clearly express our expectations.

We cannot express the satisfaction with the job Alex and his crew did with our remodel. Coming home to our "new" home is extremely gratifying and would not have been possible without Alex's suggestions, creativity, attention to detail, and experience.

We would strongly recommend Alex and Southface Builders and can provide more information upon request.

Sincerely,

/s/Jeffrey E. B
