

November 8, 2011

To whom it may concern:

We would like to share our feedback and experience working with Alex Brogle and South Face Creative Builders.

We asked Alex to help us design a new deck for the back of our house. He presented us with a creative design that we knew would look great. We asked *for some modifications to fit our budget and he quickly provided us with suggested changes that fit our needs and also maintained the components of the design that we really liked.*

The construction phase went smoothly and Alex ensured that we were pleased with the final product.

We had a great experience working with Alex and highly recommend him to others looking for a quality experience.

Sincerely,  
Jim and Lisa E
